MRS. BEN LINGENFELTER DIES; FUNERAL IS FRIDAY

A union of rare devotion and service of more than 52 years was broken yesterday by the death of Mrs. Henrietta Lingenfelter, wife of Rev. Ben H. Lingenfelter, both residents of Torrance since 1924.

She had been in ill-health for several months and about three weeks ago she decided with her husband to sell their home at 1311 218th st., and move to the home of a daughter in Los Angeles where she could receive constant attention. News of her passing came as a great shock to her many friends in Torrance, Lomita and Harbor City. The funeral service will be held tomorrow (Friday) afternoon at 2 o'clock at Stone and Myers' chapel in Torrance. Interment will follow at Inglewood Memorial park.

The above photo of Rev. and Mrs. Lingenfelter was taken at the time of their golden wedding in Torrance in June, 1939.

Henrietta Kennedy, who was born in Maryville, Mo., Jan. 24, 1870, was a school teacher when she married Ben H. Lingenfelter, a young teacher. Her father was a farmer and a district judge. They were married June 26, 1889 when Ben was 24 and Henrietta was 19. — in the Kennedy home.

Life-time of Service Both entered Drake University the following September. Rev. Lingenfelter received his diploma in 1894 but his wife did not get hers until 1896. At the time of their golden wedding in 1939 she explained: "I had to take 'time-out' to have a daughter, my Mary, now Mrs. H. M. Thompson of Long Beach."

University careers behind, the Eastern Washington called them and they were in Yakima valley for seven years more. For the next five years the Lingenfelters were in Butte, Montana, where he filled the pulpit of the Shortridge Memorial Christian church. They came to California and settled in Harbor City, Dec. 18, 1923. In June of the following year they moved to Torrance. Mrs. Lingenfelter is survived by four daughters, Mrs. H. M. Thompson of Long Beach, Mrs. J. R. Kremen of Seattle, Mrs. John O. Engel of Los Angeles, Mrs. Ivan L. Farman of March Field, and their son Dr. John S. Lingenfelter of Seattle, seven grandchildren and one great-granddaughter.

Business Women Hold Sunday Morning Meet

Torrance National Business and Professional Women cancelled plans for their dinner meeting last Monday evening because of emergency conditions and instead met for breakfast at 8:30 Sunday morning at Daniels Cafe. All members who were not present at this meeting are asked to note that the club will meet next Sunday morning at the same place, same time, for another discussion of their plans for entering defense work. That meeting will also be the club's annual Christmas party with exchange of gifts.

President Edna Smith outlined work that may be done in connection with the Red Cross in addition to the knitting and sewing which has been carried on for some time, and advised members who wish to take on such defense duties to get in touch with Mrs. R. R. Smith, chairman of Red Cross work in Torrance.

Secretary Rose Williams, who is a member of the California State Guard, described the needs of the Guard for women workers between the ages of 18 to 45, to do clerical, messenger or other work, and asked for donations of equipment and medical supplies for a new base hospital. These donations may be left at the Ellwood Dress Shop, 1419 Marcelina, or the Torrance Plumbing Shop, 1418 Marcelina, where Mrs. Ellwood and Mrs. Parks will see that they get to the proper destination.

Superintendent Esther Maxwell, of Torrance Memorial hospital suggested that all past-board cartons be saved. In an emergency they can be used to make temporary splints for broken bones. Only heavy cartons with smooth surfaces can be used for this purpose. She also suggested that women save all safety and common pins, as there will be a shortage of these useful articles.

A quantity of unbleached muslin belonging to the club has been turned over to Mrs. Arvilla Owen to make arm bands for Red Cross workers. All members were urged to take up some form of defense work, either in attending first aid classes, Red Cross or Civilian Defense work.

The club heard with mingled regret and pride that its president, Mrs. Edna Smith of Lomita, may be unable to serve out the year, since she has been notified by the Army to hold herself in readiness for a call to service as a dietitian.

IDENTIFICATION REQUIRED The Navy requires its men to mark their names on blankets in eight places for quick identification.

Air Raid Protection Instructions

Keep Cool! Stay Home! Put Out Lights

STAY AWAY FROM WINDOWS!

Jack H. Helms, acting regional director of Civilian Defense for the Ninth Civilian Defense Area, has issued the following air raid instructions:

- 1—Familiarize yourself with your local blackout and all clear signals—a continuous two minute fluctuating siren blast announcing danger of a raid; followed by a two minute continuous and uninterrupted steady siren blast for the "All Clear."
- 2—When the signal comes, turn out all house lights if you have not blacked out your windows. Stay home. When bombs fall, lie down on the floor to avoid flying glass.
- 3—If you are driving, pull car into curb, turn out lights and get under cover and lie down. Keep away from crowded places and stay off the streets.
- 4—If incendiary bombs fall on your house, cover them with dry sand. Keep sand bags in your home. Keep garden hose attached to faucet. Use a fine spray only on bombs. A splash or jet of water will make them explode.
- 5—If you have a soda-and-acid extinguisher (the kind you use upside down), place your finger over nozzle to make spray. Do not use the small cylinders of liquid on bombs. They can be used on ordinary fires.
- 6—Under raid conditions, fill your bathtub and all buckets in case water mains are broken. Locate your nearest fire alarm box. Use it instead of telephone whenever possible. The telephone lines should be kept clear in these periods.
- 7—If poison gas is used, go to the most inside room of your house (fewest doors and windows). Paste paper over windows, stuff cracks in doors and windows with rags.
- 8—Appoint one member of the house now as air raid warden to take charge and remember all the rules.
- 9—Don't believe rumors—spreading false rumors is part of the enemy's technique.
- 10—Should you get an air raid warning, remember to shut off gas stoves and gas furnaces.
- 11—Anti-aircraft fire means falling shrapnel. You are safe from it indoors, away from windows.
- 12—Above all, keep cool. Stay home. Put out lights. Lie down. Keep away from windows.

SECRETARY PAID Payment to W. C. Bradford, secretary of the municipal civil

service board, of \$100 for three months' work was authorized by the city council Tuesday night.
